

Clare is a Rangeland Agrologist with 30+ years experience. Clare specializes in rare plant and community studies, and in rangeland studies and report writing throughout and adjacent areas.

Clare is especially skilled in recognizing native plant species as they occur in their natural environment, and applying this to the reproduction of these species in both field and greenhouse settings through Eastern Slopes Rangeland Seeds Ltd. which he started in the mid 1980's. He is also a recipient of 2005 Emerald Award along with Kathy.
