

## Andrea L. Bullinger, PAg- Professional Recognition Award

---

Andrea is a Professional Agrologist and the Manager, Environmental Compliance for Encana Corporation's Northern Operating Area. She manages a large team of environmental professionals that specialize and advise in diverse aspect of land management. A soil scientist by training, Andrea has seventeen years of environmental and agrology related experience in Alberta. Prior to moving to Alberta, Andrea was an instructor (diploma agriculture program) and teaching assistant in the Faculty of Agriculture and Food Sciences at the University of Manitoba. Andrea received a B.Sc. in Environmental Science and a M.Sc. in Soil from the University of Manitoba.

"As a manager, my success is my team's success. You should be leading from behind...making opportunities for others". "I have this really amazing team... and they make every day worth it."-Andrea Bullinger

Acclamations:

"Andrea's efforts contributed to a range of areas regarding the proper assessment and reclamation of pipeline right of ways and local issues such as Clubroot control and best practices. In these areas and others, she has become a leader and supporter of best practices. Andrea always provides clear direction along with sound and ethical advice to those she works with and for."-Robert Corbet, P.Ag.

"Andrea doesn't have an agenda... It's about what's right and it's about doing the job professionally and ethically."-Diana Dunn, P.Ag.

"She's very team focused. It's always her people first."-Rochelle Neumeier, P.Geo.
