

Biography: Greg Bartley

Greg Bartley is the Director of Crop Protection & Crop Quality at Pulse Canada. He holds a M.Sc. in Plant Science from the University of Manitoba, a Certified Crop Advisor and a Professional Agrologist registered in Manitoba. In his role at Pulse Canada, Greg works to ensure the Canadian pulse industry benefits from new crop protection products, minor use registrations, affordable and accessible products, and adoption of import tolerances for crop protection products in the global market place.
